
Job Title: Data Associate Consultant
Location: London, UK
How to apply: Please send a CV and a cover letter explaining why you are interested and suitable for this role to: recruitment@kksadvisors.com with the subject line "Data Associate Consultant application". We will be recruiting on a rolling basis.

Who are we?
KKS Advisors is a leading advisory firm specialising in strategy and research, formed with the vision to reshape markets. Our goal is to enable clients to create long-term value through the integrated management of economic, environmental, social and governance factors. KKS works with companies, investors, NGOs and policy-makers to drive systemic change, across a range of service offerings including - strategy, corporate governance, reporting, sustainable investing, measuring impact and specialist research. KKS provides thought leadership by regularly publishing research that inspires decision makers to drive market transformation. We are currently located in London, Athens and Boston.

Who are we looking for?
We are seeking a highly-motivated, talented and passionate Data Associate Consultant to join our London consultancy team. The position holder will play a key role in providing econometric data analysis to a number of high profile investor and corporate clients, as well as participating in creating new data products and general development for the firm. The successful candidate will have experience manipulating and analysing complex datasets to generate creative and visual end products for clients, and will want to help solve global environmental problems and accelerate the reshaping of global financial markets using the power of data. The successful applicant will thrive in an entrepreneurial environment and will have excellent communication and team-work skills. The individual will thus be expected to demonstrate both ambition and the ability to manage multiple responsibilities.

The position is a full-time role, with a 6-month probation period.

Key Responsibilities:

- Assisting in the construction of robust data infrastructures to support the analysis of client data.
- Analysing complex datasets and presenting findings to internal and external stakeholders in an optimal way (considering both user-friendliness and visual appearance).
- Seeking out opportunities to use data skills to provide a competitive edge to our clients and increase efficiencies of existing processes.
- Building an understanding of different clients' needs and tailoring information to the target audience.
- Utilising processes and tools for project management, impact measurement and performance measurement including: day to day workflow tracking and annual workstream and budget planning.
- Developing bespoke data analysis tools to integrate into existing workflows.
- Developing the machine learning capabilities and tools of KKS Advisors.
- Leading the development of data products and contributing ideas to enhance new product offerings.
- Working in a team to deliver high-quality consulting services to clients.
- Assisting in further developing the KKS brand.
- Support the overall mission, vision and goals of KKS Advisors.

Skills and Requirements

- Expert knowledge of Stata and/or R (or other programming languages for data analysis). Experience with Python and SQL desirable.
- Keen interest in sustainability issues and the use of data to solve them.
- Ability to work collaboratively, build cohesion, and perform well both individually and within a team.
- Ability to document work to a high standard, maintain documentation and establish procedures.
- Ability to work under pressure and with flexibility, to meet tight deadlines.
- Proactive and energetic, with the ability to engage stakeholders.
- Innovative problem solver, confident to take initiative.
- Demonstrated experience with econometric analysis.
- Bachelor's degree (master's degree desirable) in Economics, Finance, Business, Engineering.
- Strong work ethic and positive attitude.
- **Applicants need to be eligible to work in the UK.**

What are we offering?

- Competitive salary and a fixed term contract (6 months' probation period with possibility to extend based on performance).
- Autonomy to take ownership of your work and innovate in your approach to projects.
- Scope to start implementing processes and a strategy, in collaboration with leadership, for a Data Team within KKS Advisors, dependent on performance in initial 6 months.
- A supportive team and working environment that values excellence and is motivated by making a positive impact on society and the environment.
- Exposure to working with major clients from the private sector.
- Flexible workspace – ability to work remotely.
